Changes to our pharmacy plan

On January 1, 2017, we're making changes to our pharmacy plan and specialty drug lists. Our updated drug lists will include newly added brand-name and generic drugs. Also, drug coverage reviews like prior authorization, quantity limits and step therapy will start to apply to some drugs and may no longer apply to others.

We don't want there to be any surprises for your members. These updates will affect the prescription drugs your members take. So make sure you check out the list of specific changes in the enclosed chart.

We're letting members know

Starting in September, impacted members will get an e-mail or letter about the upcoming changes. Our goal is to connect them to cost-effective care. To do this, we encourage members to choose preferred drugs. They'll typically pay lower out-of-pocket costs when they do. We base our preferred drug list on the latest medical findings and information from the U.S. Food and Drug Administration and drug makers.

We're here to help

To learn more about our Aetna Pharmacy Plan Drug Lists, visit www.aetna.com/formulary. You can also find:

- The most up-to-date Pharmacy Plan Drug Lists
- Precertification, quantity limits and step-therapy lists
- Specialty drug list

Remember, this information is subject to change during the year. Please contact me directly at **702-280-6643** if you have questions about these upcoming changes.

Thank you for choosing Aetna.

Sincerely,

Elliott Cushing
Account Executive

Enclosure

Aetna is the brand name used for products and services provided by one or more of the Aetna group of subsidiary companies, including Aetna Life Insurance Company and its affiliates (Aetna).
